

TREASURY MANAGEMENT

Mobile Experience

Access the *Treasury* Mobile Experience by navigating to

<https://treasury.nbofi.com/pwa/nbofi>

or by scanning the QR Code:

You will use your *Treasury* credentials and authentication method to login.

This is a progressive web app and is not downloaded from an app store. You can manually create an app icon and add it to your Home Screen. At which point it will function as a traditional app.

See next pages for iOS and Android instructions.

About Progressive Web Apps (PWAs):

PWAs have many advantages, especially for a user base who is primarily using the *Treasury* desktop channel for daily tasks. The mobile channel as a convenient complementary solution when you are away from the office.

PWAs are essentially websites that perform like downloadable apps, meaning you get the best of both worlds: the speed and flexibility of web development, and the streamlined look and feel of an app. Once changes are made to the application, they will become available on all platforms at the same time, creating instant consistency and eliminating the need to update the app to the latest version.

TREASURY MANAGEMENT

NOTE: You must log into Treasury before adding to the Home Screen.

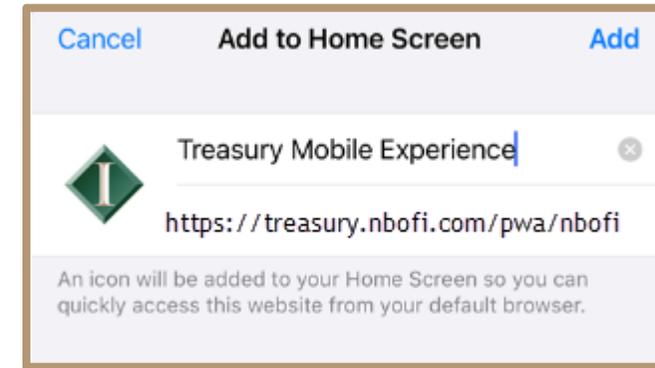

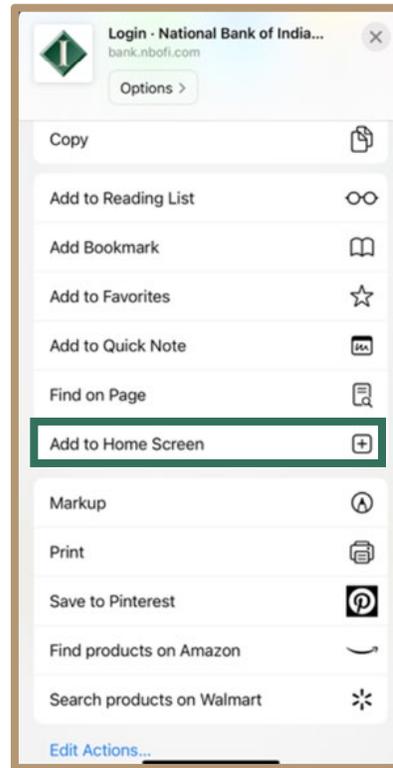

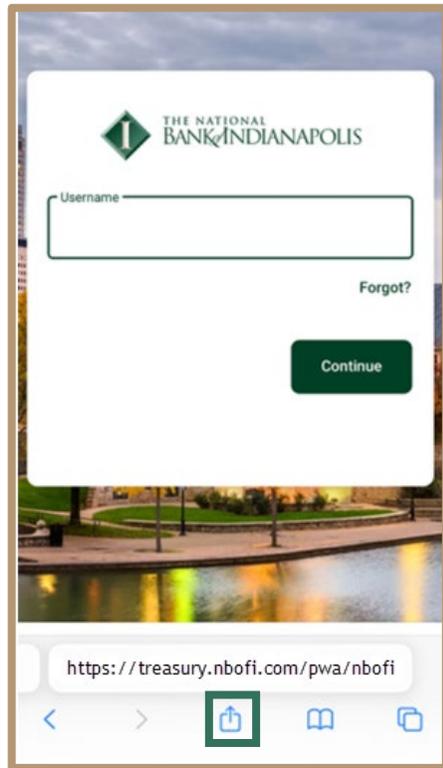

Mobile Experience – Adding to Home Screen (iOS)

Start by logging into with your *Treasury* credentials and authentication method.

Select the *Share* icon  from your browser menu

Select *Add to Home Screen*

Name Your Mobile Experience

Find the app icon on your home screen and use it as you would any other traditional app.
